## What is a Comic Strip?

A comic strip is a sequential art form that tells a story through a series of illustrated panels. It typically combines images and text to convey narratives, humor, or messages in a visually engaging format. The panels are arranged in a specific order to guide readers through the storyline, and dialogue or captions are used to provide additional context or convey character thoughts and emotions.

They are often published in newspapers, magazines, and online platforms, providing entertainment and commentary on a wide range of subjects. Comic strips offer a unique and creative way to engage readers, express ideas, and explore storytelling through the power of visuals and words.

## Twelfth Night Summary

Shipwrecked on the island of Illyria, Viola believes she is alone because her twin brother Sebastian likely drowned. She disguises herself as a man and calls herself Cesario, and begins to serve in the Duke Orsino's court, where she ends up falling in love with the Duke. The Duke is in love with a woman named Olivia who has recently lost her brother and her father. She refuses to marry anyone for seven years. The Duke sends Cesario as an envoy to Olivia on his behalf, but Olivia ends up falling in love with Cesario.

Meanwhile, members of Olivia's court conspire to make her obnoxious steward Malvolio think that Olivia has fallen in love with him. They deliver a letter in her handwriting telling him to act and dress strangely to prove his love for her. Olivia is appalled by his behavior, and Malvolio is locked up by the conspirators and mercilessly mocked. They do allow him to write a letter to Olivia asking to be released from his prison.

Sebastian arrives at the court, alive after all. Olivia asks him to marry her, thinking that he is "Cesario." Sebastian agrees, and they are married. Cesario and Orsino go to visit Olivia, and Olivia greets Cesario, thinking she is the Cesario she just married. Sebastian arrives, and Viola reveals her true identity. Orsino comes to realize that he's in love with Viola and the couples are happy with the outcome. Malvolio is released from his prison and swears revenge on his tormentors.

## Types of Shakespeare Plays

**By Rebecca Ray and Kristy Littlehale**

No matter what they were named, William Shakespeare's plays would still be great works of art, so it may not matter what we call them. Generally though, Shakespeare wrote three types of plays: Tragedy, Comedy, and History.
